

Subcontracting

**Subcontracting**  
in top quality and precision,  
economical flexible and quick – that's STOLLE.

Spindle Tooling

Drilling

Planing

Milling

We make high demands.  
Especially on ourselves.

Economical, flexible and high-quality solutions – you can count on these with STOLLE.

Our modern machinery and equipment with several CNC tooling centers opens up a wide range of options for you to process many different materials, such as steel, stainless steel, aluminum, plastic and cast materials of all types. Thanks to our extensive experience in casting technology, we are not only capable of manufacturing favourably priced products we can also process parts delivered to us or produced to your specifications. Tasks such as milling, drilling, planing and spindle tooling are all a part of the wide range of services we offer, along with further processing methods and techniques, such as annealing, hardening, welding and grinding. We are able to offer you numerous options covering all aspects of the high-precision, flexible machining of your products from a single source.

As a family owned company in the fourth generation with more than 110 years of tradition and experience in the field of subcontracting, we satisfy the high demands our customers place on quality and precision. You can rely on STOLLE!

STOLLE: The system supplier for your components,  
for all kind of materials.

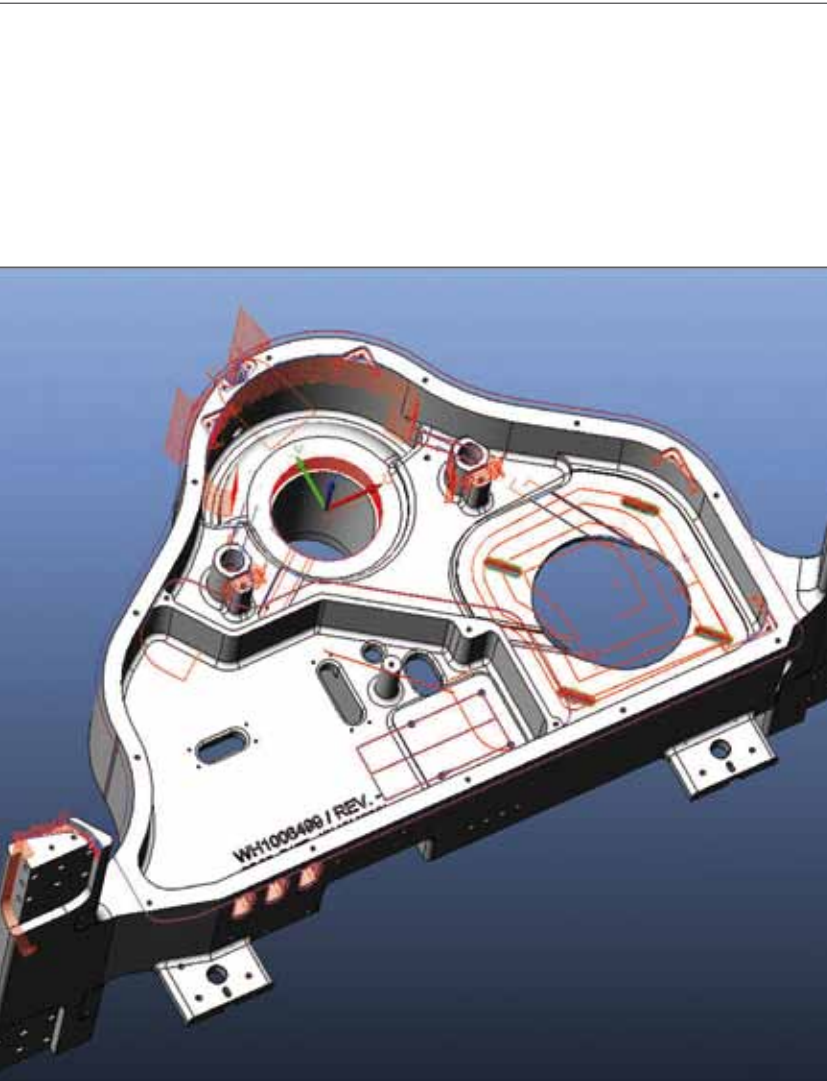

No matter whether you here individual or special parts, small or large series, finished products or individual components, we adapt ourselves to your requirements. We are spezialized in the machining of various materials, such as:

- Cast iron
- Steel
- Aluminum
- Stainless steel
- Nonferrous metals
- Plastics

This means that we can offer you a wide range of applications. You can rely on the know-how from STOLLE!

STOLLE: Your one-stop-shop machine processing partner – from the planning right through to realization.

An overview of our services:

- Milling
- Drilling
- Spindle tooling
- Stress relief annealing
- Hardening
- Welding
- Cutting
- Laser measuring of surfaces

We have a quick turn-around thanks to our machinery with integrated CAD CAM system.

## Subcontracting

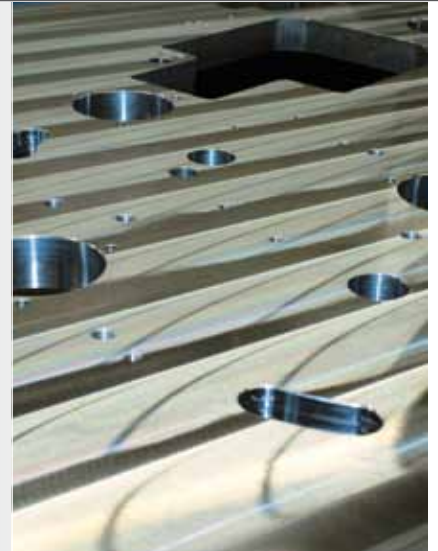

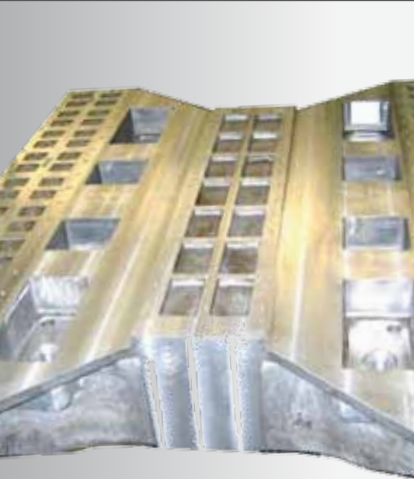

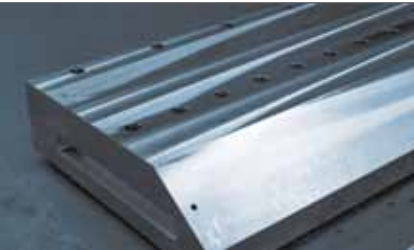

STOLLE: We handle your entire projects – all from a single source.

Our machinery and equipment consists of approx. 35 machine tools:

- CNC tooling centres
- Gantry and portal construction
- Planing machines
- Radial drilling machines
- Milling machines
- Horizontal table boring machines
- Own turning, fitting and trimming workshops

STOLLE: A wide variety of options  
for high quality products.
